

## About the Study

St. Lucie County is currently conducting a Project Development and Environment (PD&E) Study for the widening of Glades Cut Off Road (CR 709) from Range Line Road to Selvitz Road.

## Project Location Map

## What is a PD&E Study?

A PD&E Study evaluates the social, economic, and environmental impacts associated with a planned transportation improvement project. An important component of the process is public and agency involvement. The process follows federal and state laws and regulations. During the PD&E study process, St. Lucie County will develop "build" alternatives and provide opportunities for your input.

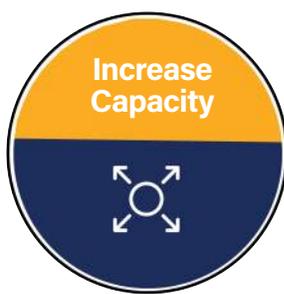

The following are the key components of the PD&E process:

- Data Collection
- Traffic Forecasts
- Alternatives Analysis and Environmental and Engineering Analysis
- Public and Agency Involvement
- Documentation
- Study Recommendations

## Purpose and Need

The primary purpose of this study is to develop alternatives that address operational and safety deficiencies along the corridor.

The need for this project is to increase capacity, enhance modal interrelations and accommodate future growth.

## Stay informed and get involved

Scan the QR Code to visit the project website for more information about this project or to sign up to be on the mailing list.
